PORTFOLIO

Akhila Amy

DESIGNER & ART DIRECTOR

[EMAIL ME](#)

BIO

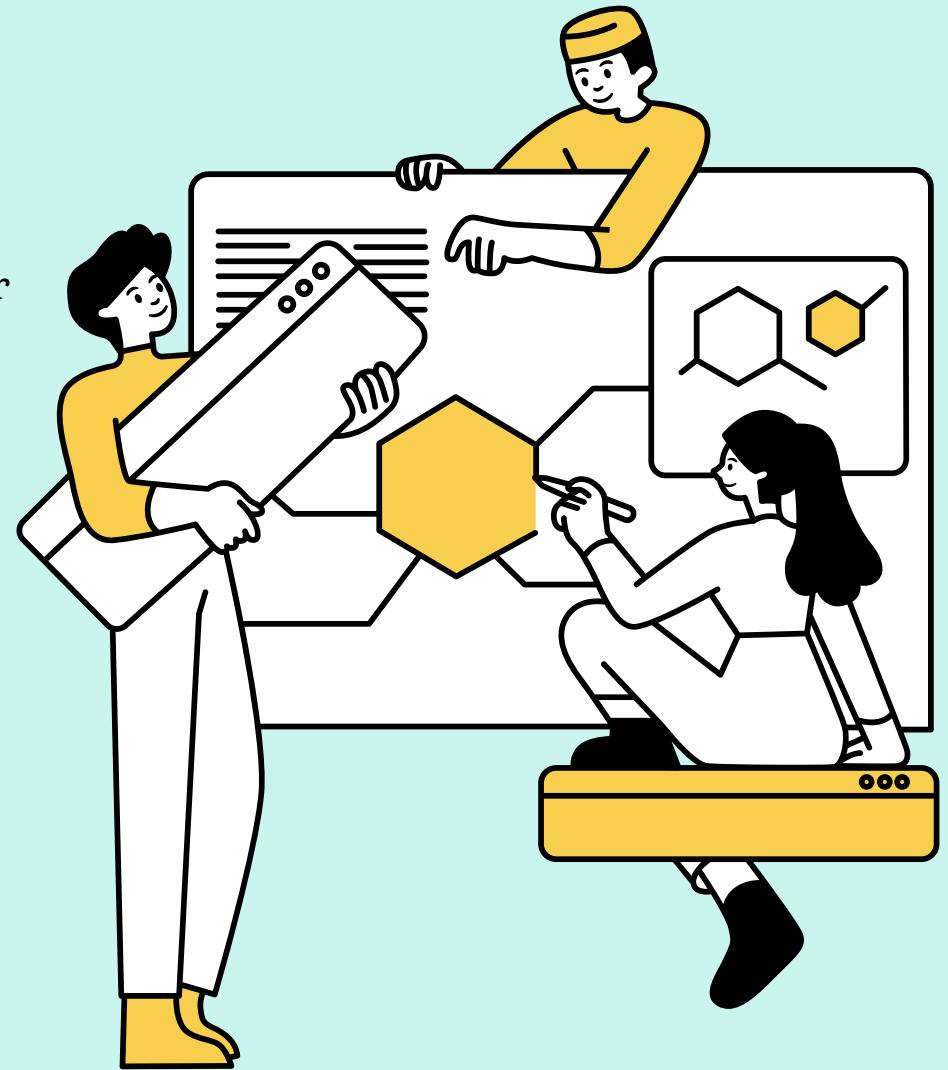

I am a technical and creative innovator.

As a curious and innovative thinker, I leverage my passion for coding, business applications, and embedded system design to develop creative solutions that drive positive social and medical impact. With a strong foundation in problem-solving and a drive to continuously learn and expand my skill set, I aspire to launch my own business that makes a meaningful difference in people's lives.

Projects

- Smart Garbage Monitoring System Using Arduino UNO
- Digital Thermometer
- Automatic Color Sorting Machine using Arduino Nano and TCS3200 Sensor
- Design of Smart Dustbin with IoT and ESP8266 NodeMCU
- Smart Air Pollution Monitoring System
- Customer Support Ticket Booking System using Mendix

Achievements

- Semester Toppers award from Mar Ephraem College of Engineering and Technology, January, 2024
- Best performance certification from Academor, February 2022 to March 2022
- 1 prize in Slogan writing competition at Mar Ephraem College of Engineering and Technology, July 2023
- 2nd prize in English SA Writing competition at Mar Ephraem College of Engineering and Technology, January, 2024
- 1st prize in Malayalam poem writing in Parassala diocese level, April 2024
- 1st prize in Malayalam poem writing in 'Sargostava 2024' conducted by district level of Parassala diocese, July 2024
- Best outgoing student of School

Goals

My short-term goal is to publish my own book, sharing my ideas and stories with a wider audience.

In the long term, I aspire to establish a socially responsible business that provides medical assistance and support to those in need.

Hobbies

In my free time, I indulge in my passion for reading and writing, finding solace and creative expression within the pages of a good book.
